Valve Schedules... Where The Spec Becomes A System.

Join us next Tuesday at 1:00 (CDT) as Bob Rudman, Milwaukee Valve's Director of Marketing, and Matt Martin, Vice President of Specification Sales at James Martin Company, explain the importance and opportunities provided by the Valve Scheduling system.

At some point in the design process of a commercial or industrial building's mechanical systems, specifying engineers switch from designing the systems required to laying out the actual build and designating the piping, joints and valves to be installed.

The Valve Schedule Bootcamp will dive into the "why" of each choice of valve for a given service. System by system, we'll look at the various types of valves, their design, benefits, materials of construction and so on.

**VALVE SCHEDULE
BOOTCAMP**

TUESDAY, MARCH 21 1:00 CST
[\(Click here to register\)](#)

The webinar will run for 45-50 minutes, followed by a short Q&A session. Continuing Education Units (CEUs) are available from the American Society of Plumbing Engineers (**ASPE**). A link to the registration page can be found at the [Milwaukee Valve](#) website today or by clicking [HERE](#). Registration is required for Live or On-Demand attendance.
