How A Valve Makes It Into Your Building.

The Long And Winding Road... It's a great Beatles song, and it's also a good way to describe how a valve gets from an architect's drawings to actual installation in a new hospital.

Join Chris Tarantello, Milwaukee Valve's national sales manager on Wednesday, May 17th as he describes how valves move through a typical distribution chain.

The webinar will begin at 1:00 (CST) and run for 30-40 minutes, followed by a short Q&A session. Registration is required for Live or On-Demand attendance.

A link to the registration page can be found at the [Milwaukee Valve](#) website today or by clicking [HERE](#). Registration is required for Live or On-Demand attendance.
