

The More You Know

August 13, 2025

Save the Servers, Serve All the Services.

In data centers, downtime is not an option. That's why every valve in your facility must meet the highest standards of quality and reliability. Milwaukee Valve has the engineering capability, experience, product offering and inventory to fill every valve requirement in a data center.

Already well known in the data center universe for resilient-seated and high performance butterfly valves, the Milwaukee Valve product lineup can handle the valve temperature and pressure capacity ratings of much more demanding environments. Our 3D-printing technology can build titanium to produce stronger yet lighter valves, that meet stringent military standards.

Reliable valves for data center cooling systems, restroom plumbing, and everything in between — it's what we do. Our extensive lineup includes:

2-PIECE BALL VALVES

IRON GATE, GLOBE & CHECK VALVES

BRONZE & BRASS GATE, GLOBE & CHECK VALVES

3-PIECE BALL VALVES

RESILIENT (RUBBER)-LINED BUTTERFLY VALVES

HIGH PERFORMANCE (HP) VALVES

Milwaukee Valve engineering, distribution, and contracting partners have over **10,000 finished SKU's** available to meet your day-to-day requirements. **Better Valves, Better Inventory, Better Service** makes Milwaukee Valve the best choice for all your data center services.
