Celebrating Labor Day: Honoring the People Who Make Our Success Possible

As Labor Day approaches, we would like to take a moment to recognize and celebrate the dedicated employees whose hard work, skill, and commitment drive Milwaukee Valve Company's continued success.

Labor Day is more than just the unofficial end of summer. It is an opportunity to acknowledge the contributions of American workers and reflect on the value of teamwork, craftsmanship, and innovation. At Milwaukee Valve, these values are demonstrated every day across our manufacturing facilities, offices, warehouses, and customer support teams.

Our company's strength has always come from our people. Whether you are designing solutions, producing high-quality products, supporting customers, managing operations, or ensuring our facilities run smoothly, your efforts play a critical role in fulfilling our mission and maintaining the reputation for excellence that Milwaukee Valve has built over more than a century.

Every valve that leaves our facilities represents the dedication, expertise, and pride of the individuals behind it. The commitment you bring to safety, quality, and

continuous improvement helps us serve our customers and support industries around the world.

As we celebrate Labor Day, we want to express our sincere gratitude to every member of the Milwaukee Valve family:

- Thank you for your hard work and dedication.
- Thank you for your commitment to quality and safety.
- Thank you for supporting your teammates and contributing to our positive workplace culture.
- Thank you for helping Milwaukee Valve remain a trusted industry leader.

As we move into the remainder of the year, we remain focused on building upon our successes and meeting new challenges together. With the talent, determination, and teamwork of our employees, we are confident that our brightest days are still ahead.

We hope you have the opportunity to enjoy the Labor Day holiday with family and friends, relax, and take pride in all that you have accomplished.

Happy Labor Day from Milwaukee Valve Company!
