Stop The Hammer In The Nation's Capital!

Milwaukee Valve heads to AFSA44 in Washington, DC later **this week**. AFSA44 is the

annual Convention, Exhibition & Apprentice Competition of the **American Fire Sprinkler Association**, a trade association whose membership includes fire sprinkler contractors and designers, manufacturers and suppliers of fire sprinkler products, and Authorities Having Jurisdiction (AHJ). The convention and exhibition is held each Fall to introduce the latest technology in the fire sprinkler industry.

A key feature of the convention is an annual apprentice competition, in which apprentices will cut, thread, and install a miniature wet pipe system complete with sprinklers and a pressure test — all on display to a packed exhibit hall crowd. The winner with the highest combined points on the onsite written test

and practical installation will receive top honors and a \$5,000 cash award!

Milwaukee Valve is a sponsor of the Apprentice Competition, which raises the profile and recognition of skilled fire sprinkler apprentices and highlight how

vitaly important the technical craft of installation is to the success of the fire sprinkler industry.

Milwaukee Valve’s own fire-protection expert Bob Rudman will be manning **Booth 734** on Friday, October 17th and Saturday, October 18th. Bob will be available to answer questions on our products for fire-sprinkler systems.
