

December 5, 2025

Ref: Price Increase Effective January 5, 2026

To: All Milwaukee Valve & Hammond Valve Distributors,

As a result of ongoing inflationary factors, please be advised that a price increase of 4% will take effect January 5, 2026, for all valve product groups. Please know that the new list and special net pricing can be calculated by dividing our current list and special net prices by .96.

The updated "Flat List" in Excel format with Universal Product Codes (UPC) is posted to our website at [www.milwaukeevalve.com](http://www.milwaukeevalve.com) under the Resources tab. The printable price lists and mini-flat lists that reside within each product category will also be available under the Resources tab.

All orders placed prior to January 5, 2026, for immediate release, will be filled at current pricing. Additionally, Milwaukee Valve reserves the right to limit order quantities that may exceed historical and reasonable monthly purchase levels. All orders specifying release dates beyond January 5<sup>th</sup> will be filled at the price in effect at time of shipment.

All other terms and conditions of sale remain unchanged.

If you have questions, please contact your Milwaukee Valve sales or customer service representative.

Thank you for your continued interest and support of our products.

Very truly yours,

**MILWAUKEE VALVE COMPANY, LLC**

Christopher J. Tarantello

Vice President Sales & Marketing – Commercial and Industrial
